Soon to be *Mr. and Mrs. Edney*
first contacted us to learn more about our pricing and scheduling availability for their wedding day. After a short FREE consultation over the phone, we agreed to meet at the venue to view the space, lighting, acoustics, etc. to determine the number of crew members, equipment, and get additional ideas for coverage for their special day.

"We received more than 35 emails back from different photo and video places"

"Your company was the only company that actually CALLED us back to talk about our wedding plans and treated us like real people not another 'gig'."

"We appreciate the free additional DVD copies you sent us for referring my sister, but it was your performance at our wedding that made it easy to refer you."
